Church Sound & Acoustics Questionnaire Results Sheet

Use this handy sheet to help you interpret the raw data (questionnaire forms) from your congregation. Since there are cases when people forget to answer a question (or choose not to), you must know the number of people who answered each question, not just the total number of response sheets you received.

| | total points for all who answered this question | \div | number of people who answered this question | $=$ | average score | |
|-------|--|--------|--|-----|----------------------|---|
| Q. #1 | <input type="text"/> | \div | <input type="text"/> | $=$ | <input type="text"/> | The Church sound system is such that I can hear everything that's said... |
| Q. #2 | <input type="text"/> | \div | <input type="text"/> | $=$ | <input type="text"/> | The voices are... |
| Q. #3 | <input type="text"/> | \div | <input type="text"/> | $=$ | <input type="text"/> | The music is... |
| Q. #4 | <input type="text"/> | \div | <input type="text"/> | $=$ | <input type="text"/> | Depending on where I sit, the sound is... |
| Q. #5 | <input type="text"/> | \div | <input type="text"/> | $=$ | <input type="text"/> | Week-to-week the sound is... |
| Q. #6 | <input type="text"/> | \div | <input type="text"/> | $=$ | <input type="text"/> | Overall, I would rate our church sound system as being... |

| | total in each category | \div | total number of people responding to this section* | \times | 100 = | |
